Cancellations and No Shows

If a trip is not canceled at least two hours in advance, a no-show will be recorded. Repeated no-shows will be subject to service review, and the customer will be notified. No-shows for reasons beyond the passenger's control, or due to a scheduling error, will not be counted against the passenger.

Trips in Progress

Drivers are required to complete the trip to the assigned destination with no deviations from the assignment. Passengers can assist drivers to locate destinations but an entirely new destination cannot be accommodated.

Will Call Services

Will Call Return Trips are intended to provide flexibility to passengers if they are unsure of an exact pick-up time for their return trip. When reserving trips, passengers should provide a general time they expect to call for a return trip, with no more than one Will Call request for each scheduled one-way trip.

Will Call Standard – On-time within two (2) hours

Same Day Services

Same-day service is a trip that is performed on the same calendar day as requested. All same-day service is based on availability and is not guaranteed. Same day service is considered on-time within a two (2) hour pick-up window.

Pick-Up Window

Trips are considered on-time if within a thirty (30) minute pick-up window. This window is 15 minutes before and 15 minutes after the requested pick-up time. Passengers need to be ready within the pick-up window. Within the pick-up window, the driver will wait five (5) minutes before departing to serve other passengers, and a no-show will be recorded.

Bags Allowed

Each passenger is allowed up to four (4) packages. The driver is not allowed to carry packages into homes. If packages exceed the above limits or any one package weighs more than forty (40) pounds, a ride may be refused.

Personal Care Companions

A Personal Care Companion is allowed to travel only if "PCA" appears on a SunGO ID & Card issued by the ADA Paratransit Eligibility Office and the Special Services Office. A PCA rides at no charge, but must have the same origin and destination as the qualified passenger.

Mobility Devices

All mobility devices can be transported regardless of size or weight as long as the lift and vehicle can physically accommodate them.

Service Animals

- Drivers are not permitted to handle service animals.
- A service animal must be under the control of its owner at all times. Procedures for traveling with service animals involve loading the animal first and unloading the animal last.
- For the safety and comfort of the driver and other passengers, service animals are required to be clean, well groomed, completely under the control of their handler and absolutely non-aggressive.
