## **DRIVER PROTECTIVE BARRIERS**

### **Item One: Questions**

#### **Question #1: What are the defined set of hours and workdays for the Sun Tran installation locations?**

Answer: Barriers will be installed between the hours of 8pm and 4am any day of the week.

#### **Question #2: There are two locations listed in the RFP; will installations occur at both or only one location?**

Answer: Both locations

#### **Question #3: Is there a driver barrier that needs to be removed? If so, is it the responsibility of the Property or the Contractor?**

Answer: The contractor will not be responsible for removing any driver barriers.

#### **Question #4: Can Sun Tran provide further details on the ANSI standards required for the latching mechanism as noted on section 3.0 Materials?**

Answer: The latching mechanism should meet American National Standards Institute (ANSI) standards of Grade 1 commercial hardware.

### **Item Two: Update on Special Terms and Conditions**

Item #14 (Discounts) have been removed from Special Terms and Conditions due to duplicate and conflicting language. Item #32 (Repairs) is not relevant to this solicitation. Please disregard these items.

### **Item Three: Please information on the farebox:**

#### **Can the Property please provide how far from the rear the farebox is as well as the height of the farebox?**

Answer: Please see below for approximate size of farebox and pedestal.

\*The Illustration and dimensions listed are for reference only and are not to be considered an exact representation of the area in question. Contractor is responsible for inspecting and measuring each bus to ensure proper fit prior to production.

**Approximate dimensions for Farebox:**

- A. Height 41"
- B. Farebox is 10" deep
- C. Approximate distance between farebox and dash is 1 ¼"
- Distance between farebox and driver's platform 0"

**Approximate dimensions for Farebox Platform:**

- D. Height 7"
- E. Angle 16"
- F. Straight 13"
- G. Depth: 10"
- H. Backside 25 ½"
